

RENTAL SYSTEMS

Production/Processing Series

Thermal Oxidizers

Skid-Mounted Wellhead Flares

Trailer-Mounted Wellhead Flares

Reliable and efficient.

Designed for wellhead, tank battery, and gas processing applications, Zeeco's thermal oxidizers and skid-mounted or trailer-mounted flare rentals are reliable, smokeless solutions for production and processing. Zeeco's flare systems meet the most stringent requirements while achieving up to 99% or greater destruction removal, while our thermal oxidizers achieve destruction efficiencies as high as 99.999%, in compliance with the latest EPA standards. With Zeeco's durable construction and high performance, our rental systems provide virtually maintenance-free operation with no adjustment or electrical requirements over their entire operating lifetime.

Easy installation and operation.

Zeeco's rental systems are engineered with fast installation time in mind. Not only are Zeeco systems easily transportable, they can be installed within a matter of hours. Our simple-to-operate design minimizes operator errors with an easy-to-use control system for monitoring and adjusting critical parameters. Our 24/7 Rapid Response Team can assist with set-up, operation, and training to work directly with your personnel to ensure trouble-free operation.

Multiple designs available.

Zeeco offers several designs and a wide range of optional equipment to meet your production or processing needs.

PARTS & SERVICE

Rental Systems

Common Applications

- Emergency flare replacement
- Flares for day-to-day equipment maintenance
- Regenerative Thermal Oxidation (RTO)
- High pressure blowdowns (pipeline and product storage)
- Low pressure tank degassing
- Loading operations (gasoline and others)
- Vapor control
- Vapor combustor backup
- Combustion equipment to meet new stream regulations
- Capacity upgrades for existing systems
- Performance enhancement for existing systems
- Well testing and drilling
- Soil and groundwater remediation

Available Equipment

- Large elevated flares up to 300ft (91m)
- Trailer-mounted flares
- Skid-mounted flares
- Air-assisted flares
- Thermal oxidizers
- RTO backup systems
- Enclosed flares
- Vapor combustors
- Biogas flares for landfills and digesters
- Knockout drums, liquid seals and detonation arresters
- Other equipment available
- 24/7 Zeeco support

Why Choose Zeeco?

Zeeco leads today's global market in the design of combustion and environmental systems. Our engineers offer the experience, knowledge and tools to properly size and design any flare or incinerator, anywhere. For 40 years, Zeeco has designed, manufactured, and delivered production systems across the globe. Our philosophy of providing customers with superior quality, on-time shipments and competitive pricing is the cornerstone of our success. Let us put our experience to work for you. Call or email us today to learn more about the full line of ZEECO® products and services.

ZEECO® combustion and environmental solutions are designed and manufactured to comply with applicable local and international standards as defined by our customers.
